Products & Solutions

Copper Solution

CAT8/6A/6/5e/3 Copper Cables | Modular Jacks | Patch Panels | Patch Leads

The High End Copper solutions of DME ProLink delivers unparalleled through-put making it the industries best high performing certified components for complete customer satisfaction. Our solutions offers an exceptional headroom above standards in both CAT6 and CAT6A. Customers are provided with an extensive range of shielded, unshielded and outdoor solutions from DME ProLink with a 25 years warranty on the performance. The copper solutions are subject to rigorous testing before it is shipped to customers.

Fiber Solution

MM/SM Fiber Optic Cable | Pigtailed | Patch Panels | Patch cords | Adapters

You deserve the Best fiber solutions. At DME ProLink we assure End to End solutions on Fiber optics to get your network support 40G and 100G applications with the varied fiber solutions in Cables and connectivity. High Density Optical Distribution Frame, Fiber feeders and Cables in Loose Tube, Tight Buffered, Multi core fiber in Indoor, Outdoor and Armored Construction offering addresses the entire fiber requirements an industry can have.

Pre-Term Solution

OM3/OM4/CAT6A | MPO/MTP | Pre-Term cables | High Density Patch Panels

Pre-Terminated Solutions - the upcoming trend. DME ProLink factory Pre-Terminated solutions are designed to reduce the installation time and minimize the data loss. We manufacture Customized Copper and Fiber Pre-Terminated solutions in Trunk Cables, Harnesses and MTP Modules to suit the field requirements with different Fiber cable type, Count, Connector Type, Breakout leg types and Lengths.

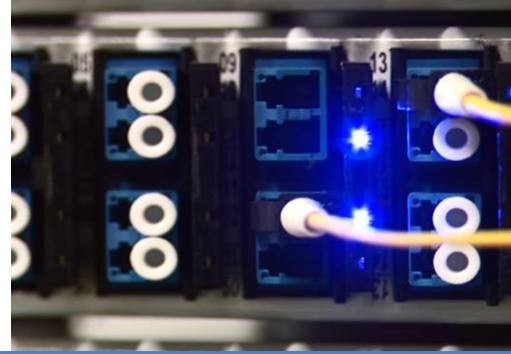

FTTx Solution

Splitters | FDH | Enclosures | High Density ODF | Blown Fiber

Are you looking for a reliable and cost-effective Solution? GPON is a solution developed to use a point to multipoint scheme where a single fiber can serve multiple optical network functionalities. DME ProLink offers the Fiber splitters in LC and SC, the connectivity solutions, the High Density Distribution Hubs and the Fiber cables required for the PON solution that is best suited for Office space, residential developments, Hospitality and Education sector.

Products & Solutions

Coaxial Solution

RG6, RG11 & RG59 Cables | Coaxial Connectors | DDFs

DME ProLink solutions offers an extensive range of Coaxial cabling solutions. RG6, RG11 and RG59 solutions are best suited for critical transmission applications that require high frequency electrical signals with lower losses such as radio frequency signals and TV signals.

Cloud Data Center Solution

CAT8 Solution | Pre-Terminated Solution | DC Cabinets | PDUs | Fiber Raceways

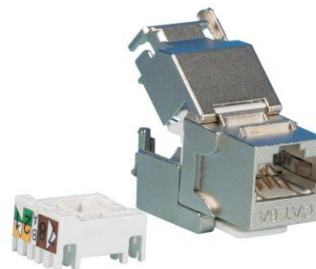

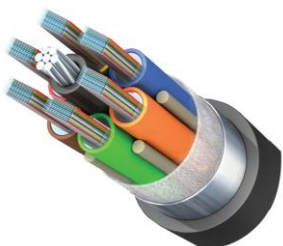

Data Center solutions at its best. Contact us for the extensive range of data center solutions support.

- Pre-Terminated Copper and Fiber solutions
- High Density Copper and Fiber Patch panels
- Elite High load Bearing Capacity Cabinets
- Fiber Raceways
- PDU's and Cable Management Systems
- Hot & Cold Isle Containment systems
- Intelligent infrastructure management system
